Ariston®

Greek for "The Very Best"

Here at Ariston Specialties we are importers, producers, and distributors of the finest olive Oils from Greece and we import the finest balsamic vinegars from Modena, Italy. We started in the spring of 1997 as a small family business, first bringing in to Connecticut cold press extra virgin olive Oil that was and still is produced by our family in the Kalamata region of Greece. We later began adding balsamic vinegar from Modena, Italy. Our mission from the very beginning was to provide the American Food Market and eventually the world with premium unsurpassed Oils and vinegars at an affordable price.

What does our
Brand name
Ariston mean?

Πάν
Μέτρον
Ἄριστον

Ariston is an ancient Greek word meaning The Very Best. It was **Aristotle** who said Πάν Μέτρον Ἄριστον meaning **"moderation is the best"** and this philosophy applies to one's diet and life. Extra Virgin Olive Oil is not just a commodity to the Greek people.

Since ancient times, olive oil is in our DNA.

What drives Ariston is to share the Very Best with our customers. From Ancient Greek pagan religion to Christianity, Extra Virgin Olive Oil has played a key role in various religious rites, sports and commercial activities. It was **Athina's** gift of the olive branch to Athens that persuaded the Gods to choose her as the possessor of the city. **The ultimate award at the Ancient Olympic games was an olive branch.** To us this tells

us that what gold is to us today, the olive branch was to the Ancient Greeks.

Olive Oil was the most important commodity for the Ancient Greeks and to this day for the modern Greeks. Now that Christianity has become the major religion in Greece, **Extra Virgin Olive Oil** is used in religious rites such as **Baptism** where we anoint the child with olive oil. During the **dark years of the Ottoman** occupation, Extra Virgin Olive Oil took a major role. It was used in lamp to give light to the basements of the churches at night so that **the Greek children could learn and maintain their roots.** These few examples show us how interwoven the simple of juice of the olive fruit has become in our human fabric.

Since 1997, Ariston's products have been greatly received by the public. Ariston's products have been featured on the Faith Middleton Show "Food Schmooze" on NPR, The Hartford Current, National Public TV has featured our products for fundraisers, and we have also been featured several times on The Boston Globe as well as the Westchester County Magazine in NY. In the winter of 2007 Ariston was featured on PBS WGBY's "Making it Here in America." Ariston's olive oil and balsamic has received several Best in Connecticut Awards from 2001- 2011. Ariston's olive oil has also received in May 2008 two gold medals at the Fort Lauderdale International Olive Oil Festival, a Bronze Medal in the 2008 a Silver Medal at the 2012 International Olive Oil Competition in Los Angeles, and was awarded "Most Favorite" Olive Oil at SIAL CANADA's 2012 OLIVE

" I remember after the Olive harvest, my mother and father would bring home the year's oil and store it in these Stainless Steel containers. My mother would fill her bottle as she needed and this is just how we stored olive oil.

I thought to myself, what a great idea to pass on. Rather than have a bottle sit on a shelf under fluorescent lights, this concept is environmentally friendly and provides the perfect condition to store Extra Virgin Olive oil.

d'OR Competition in Montreal. In 2014 we were award the Gold Medal for our Ariston Blood Orange Infused Olive oil at the Olive Japan International Extra Virgin Olive oil Competition and a Bronze Medal for Ariston Oregano Infused Olive oil at the Los Angeles International Olive oil Competition.

We started offering the Ariston Refill and Save Program in 1997.

Our Environmentally Friendly program was received well by the public as it allowed people to purchase Extra Virgin Olive oil and Balsamic Vinegar at reasonable prices. The quality of our Extra Virgin olive oil will never be compromised! Many companies offer the Refill and Save Program now but they forget that the consumer is smarter than they think. It is not the stainless steel container that keeps the people coming back; it is what you have in there.

Ariston[®] Extra Virgin Olive Oil

Extra Virgin Olive Oil for us is «Πολύτιμο» and like many Greek words, you must use a phrase to explain one word.

Πολύτιμο therefore is a word used to describe something of the highest value and highest honor to one's life. It is therefore this word Πολύτιμο, which drives us to provide the best possible Extra Virgin Olive Oil to the everyday person. For over four generations, our family has harvested olives in the hopes of producing this green gold substance we call Extra Virgin Olive Oil.

What is the difference between Ariston and other Extra Virgin Olive Oils?

Since 1997 when we first began to import Extra Virgin Olive Oil to the United States, there was very little products available having the characteristics of Extra Virgin Olive Oil. It was then that we help to start the revolution in what small way we could. With Ariston Extra Virgin Olive Oil you will get exactly that, 100% Unadulterated Extra Virgin Olive Oil. This oil is a product of our family's farms and from Co-operatives, small farmers that take pride in their trees, in their Koroneiki olives and in their Extra Virgin Olive Oil. What drives us is quality, because with quality you have a friend for life but with a cheap price you have an acquaintance. To be fully transparent to our customers, we offer a chemical analysis that has been analyzed by a third party company and not by us. Through our HACCP program, we have measures into place which manage certain critical control points that prevent adulterated olive oil from entering our production line. The Extra Virgin Olive Oil that goes from the olive tree to your bottle, has been tested at least three times to assure it's Extra Virgin status.
