A better drinking experience™ Best. Lid. Ever.

The best lid ever, brings the coolest sip ever

We used science to design our groundbreaking Takeya **Chill-lock™ hydration** lid. It keeps ice-cold liquids ice-cold, and hot beverages hot. In a Takeya bottle, liquids flow exactly as they should. Besides awesome leak-proof and no-sweat insulation, the **Takeya Spout Lid** can handle **sip, chug, and pour** with thoughtful precision—no need to remove it!

Its strong, stainless-steel construction makes the lid nearly indestructible. The innovation that snugs the spout to your lips prevents unnecessary face splashes and shirt showers, every single time you have a sip.

Bottle Technology

1

Made from 18/8 food grade stainless steel and are vacuum insulated so drinks stay icy cold for up to 24 hours and hot for 12.

2

Wide mouth opening large enough for ice cubes.

3

Patented easy-carry handle and sure grip lid band, BPA-free, of course.

4

Powder coated paint goes on extra thick to improve grip and adds durability to keep your bottle looking great longer.
