Organic Specialty Teas for Retailers and Foodservice – Wholesale Catalog Volume 23001

Committed To Crafting The Finest Teas

The past forty years have taught us that the joy of drinking tea is a passion that many of us share. Additionally, our experience and history as third generation organic tea growers has taught us that tea drinkers value quality, variety and loyalty, above all else. In other words, most tea drinkers will stay faithful to a favorite tea blend, making them what we call forever customers. To ensure that valued loyalty, we have long upheld our promise of consistency and excellence in offering organic teas, spices, herbs and blends. Whatever the ingredient, rest assured that Davidson's selects only the best and most flavorful, and micro-blends them with an expert taste and a measured touch.

In keeping with this commitment, we are proud to carry a product line that is entirely certified organic. After four decades in the industry, we quickly realized that only organic tea lives up to our definition of a quality brew, and we wouldn't feel satisfied with putting our name on anything less. Whether packaged or loose leaf, each blend is comprised of superior organic tea, fresh herbs, robust spices and a pure essence of flavor. By choosing Davidson's Organic Teas, you will undoubtedly be able to offer uncompromisingly delicious and healthy teas with an enthusiasm that matches our own.

Lastly, as a leading organic tea purveyor with three generations of tea knowledge, we aim to educate, support and guide. Whether you simply may be curious about our products and how to price them; or how long to brew them and how best to store them; or maybe you have questions about private labeling and the organic process; our proverbial door will always be open for a curious client. We believe in the value of true customer service; meaning, we won't put you through a voicemail maze or an automated system. Simply call us with any question you may have, and we'll do what we can to help you best promote your tea business with quality, consistency and innovation.

Why Organic?

It's a well-known fact that tea has become synonymous with a healthy lifestyle. Whether people are drinking tea to supplement their diet, boost their immunity, get a jumpstart on the day or relax before bed, there's no doubt that tea is quickly becoming the answer to any ailment or life transformation. When it comes to organic, realize that unlike fresh produce, teas and herbs cannot be washed during processing or before consuming. The exposure to any water would initiate the brewing process. This is particularly why it is so essential that teas and herbs be grown and processed organically. Davidson's feels a strong responsibility to offer the consumer exactly what they believe they are getting – in a few words...

Tea as Good for You as You Expect It to Be

This icon signifies that every Davidson's product has been certified to be free of chemical pesticides, herbicides, GMO's, synthetic fertilizers and all other prohibited substances as defined by the USDA. Look for this logo as your assurance that our products are pure and natural and meet these high standards.

Organic Means Much More Than Pure Tea

In addition to offering only the finest teas organically grown without the use of pesticides or chemical fertilizers, our teas come from small farms that, (1) care about the health of their workers and their workers' families, (2) maintain the integrity and sustainability of the land, and (3) respect the surrounding environment, water systems and wildlife.

Environmentally-Friendly Packaging

It makes sense to us that a pure and natural product should be packaged simply, using environmentally-conscious packaging materials while still protecting the freshness of the product itself. In providing the convenience of a tea bag, Davidson's only uses oxygen-bleached filter paper and other bio-degradable and compostable materials. One of our main goals as a tea purveyor is to reduce waste and promote reusability across the board.

Quality Control & Food Safety

In order to ensure the utmost quality, Davidson's carefully produces all proprietary blends in-house, on our own machinery, using time-tested recipes and practices of our own design, as well as conducting Quality Control checks daily. In addition, Davidson's has a Good Manufacturing Practices (GMP) program in place, as well as a Food Safety HACCP System that includes key elements required by the Food Safety Modernization Act. All employees undergo strict food hygiene and safety training, and all ingredients are sourced from approved suppliers that provide us with their operational certifications, ingredient-specific Certificate of Analysis, as well as Letters of Guarantee.

Uniquely Davidson's

*We grow our tea.

Moringa Teas

Caffeine-Free

New Product Release

Miracle Tree of Life

Moringa [Moringa Oleifera], also generally known as the “Miracle Tree of Life” is a native tree found in the Himalayan regions of India but also grows in the tropical and subtropical regions of Africa, Asia and South America. Belonging to the family of Moringaceae, Moringa is referred to as “Shobhanjana” which means a “very auspicious tree.” While most parts of the moringa tree are useful for both food and medicine, the most potent part of the tree comes from the moringa leaves, and are considered highly nutritious and filled with a variety of proteins, vitamins, minerals, phytochemicals, essential amino acids and antioxidants. This adaptogenic nutrient-packed superfood herb is widely used in Asian culinary food recipes and in traditional ayurvedic medicinal remedies for stress management, weight management, skin/hair wellness, immunity strengthening and anti-inflammation properties.*

*These statements have not been evaluated by the FDA. This product is not intended to diagnose, treat, cure, or prevent any disease.

Ayurvedic Infusions

Caffeine-Free

Balance and Harmony

Davidson's *Ayurvedic Infusions* are meant to align the inner elements and forces of the body, to the outer elements and forces of the universe. The blends use Ayurvedic ingredients and practice to promote balance between the mind, body and spirit. These teas are meant to be used as a functional means to reach inner peace and general health.

The line is formulated and endorsed by Dr. Suhas and Dr. Manisha Kshirsagar,

two highly acclaimed and accomplished Ayurvedic physicians from the Ayurvedic Healing and Integrative Wellness Clinic in Santa Cruz, California.

Chai Teas

Robust and Spicy

The phenomenon of Chai Tea has captured the tastes of Americans, and as a result, Davidson's offers a diverse variety of remarkable Chai blends. In India, Chai means tea, and traditionally refers to a spicy tea base combined with milk and sweetener. Chai blends often include a combination of cinnamon, cloves and cardamom, which provide a peppery flavor profile.

Honey Teas

Caffeine-Free

Tea and Honey

Davidson's Honey Teas boast fresh and fruity flavors with organic dried honey crystals added to each blend. The honey dissolves in the cup instantly, providing a sip of subtle sweetness, accentuating these refreshing, fruity flavors. These caffeine-free herbal blends make for the perfect evening treat, and are wonderful for children with sweeter palates.

Holiday Teas

Caffeine-Free

'Tis the Season

It's a little-known fact that Davidson's was initially founded as a mulling spices company back in 1976. Since then, Davidson's has refined the Christmas Tea line and created a selection of delightful, spicy blends that fit well with the spirit of the season. In fact, no holiday celebration would be complete without a pot of one of Davidson's Holiday Teas brewing.

The holidays are best celebrated when good friends come together at the right time, under the best circumstances. Why not enjoy this togetherness with the perfect holiday beverage in hand?

Red Teas

Caffeine-Free

Flavorful and Healthy

Though they are two distinctive bush-like plants grown in the cape of South Africa, Rooibos (pronounced roy-boss) and Honeybush share many of the same characteristics: an exotic, red brew color; a robust, tea-like character; a natural lack of caffeine; and an abundance of presumed health benefits, including vitamins, minerals and potent antioxidants. Similar to black or green teas, these red teas are processed with fermentation and drying in order to develop their color and flavor profile.

Honeybush differs slightly from Rooibos in that it carries subtle peppery notes, and a lack of natural sweetness. However, both Rooibos and Honeybush boast a smooth, rich character, which allows them to blend well with other teas and ingredients, creating an abundance of creative and healthy blend combinations.

Tulsi Teas

Caffeine-Free

Health by the Sip

Tulsi is a sacred herb commonly referred to as *The Elixir of Life* or *The Holy Basil* in South Asia. Davidson's uses three varieties of Tulsi; Krishna, Rama and Vana. These three varieties are used as the base of nine distinct, predominantly herbal blends.

Tulsi is a type of basil plant that has been grown for thousands of years, and has formed one of the cornerstones of Ayurvedic medicine. In South Asia, Tulsi is commonly cultivated for religious, spiritual or cultural purposes. Additionally, this sacred Indian herb is widely brewed because of its presumed antioxidant and adaptogenic properties.

Specials, Ordering & More

Hours: Monday-Friday 8:00 am to 4:30 pm PST

Minimums/Reorders Minimum Order is \$50.00.

Service Charges \$10.00 charged on all orders under the above minimums.

Pricing This price sheet supercedes all previous ones, and we request that you not rely on either information or numbering which may have appeared in other catalogs. **Prices are subject to change without notice, call or check website for current pricing.**

Shipping Prices listed are F.O.B. Sparks, Nevada. Most orders will be shipped USPS or FedEx. We reserve the right to choose a low-cost carrier. Shipping lead times vary from 1-7 days. See website for full listing of our Shipping Policy.

Payment We accept MasterCard, VISA, American Express and Discover, and prepayment by check/ACH/wire. If the prepayment option is not possible, we extend credit on a limited basis but do require a favorable listing with DUN AND BRADSTREET. We do not exchange credit information with other companies.

Damage/Returns Notify the carrier. Save all packing material. Food products are not returnable unless we have made an error. If that is the case, please notify us within 30 days of shipment or your claim cannot be honored.

Returned Checks Returned checks will incur a \$30.00 charge. This amount will be either invoiced or added to future orders. Please expect subsequent orders to be shipped prepaid with a certified check, money order or credit card.

Samples We are happy to ship samples of retail packaging, but we do charge for them. We ship tasting samples at no charge.

Bulk Sales We are the direct importer of many USDA Certified Organic (Oregon Tilth) teas, herbs, spices and flowers. Please inquire about bulk quantity purchases.

Salesperson Please call for the name of a salesperson or distributor in your area.
