THE HOMEGROWN DIFFERENCE

PEPPER CREEK FARMS

Welcome to the culinary capital of Lawton, Oklahoma, home of Pepper Creek Farms. Located at the base of the Wichita Mountains, this is a place where buffalo still roam wild on the hills and pepper fields stretch as far as the eye can see.

We live in the heartland of America, and we make everything with love. We're a family-run business and we pride ourselves on doing things our way. That means we use the freshest, locally grown ingredients—most of them picked by hand. We're obsessed with quality, so we cook in small batches to preserve the integrity and fresh flavors of our natural ingredients. Nothing else would do justice to our cherished family recipes.

You can taste the essence of the Southwest in all of our classic condiments, pepper jellies, relishes, pickles, salsas, dips and seasonings.

If you're ever passing through our part of the country, give us a call. We love visitors, and we'd be glad to show you around.

PEPPERCORNS

NEVER BASIC. Peppercorns are one of the oldest and most important spices. They're derived from the fruit of an evergreen climbing vine that originated in the jungles of India. They taste most flavorful when freshly ground and add a complex taste and aroma to any dish.
